Subjects

Abnormalities:

Absent and anomalous superior oblique and superior rectus muscles, Drummond GT et al, 275-279
Bilateral congenital third cranial nerve palsy, Flanders M et al, 28-30
Nanophthalmos in sisters, one with exfoliation syndrome, Diehl DLC et al, 327-330

Acid rain:

Effect of acidification on the bacterial flora of lakes and of the rabbit eye [C], Seyfried PL et al, 295

Adenoma:

Chondroid syringoma of the eyelid, Jordan DR et al, 24-27

Administration, topical:

Ocular complications of a topical methylene blue-vasoconstrictor-anesthetic preparation, Brownstein S et al, 317-324

Adrenal cortex hormones:

Acute visual loss due to a calcified optic nerve glioma, Jordan DR et al, 335-339
Causes and management of bacterial keratitis in the elderly, Ormerod LD, 112-116
Nocardia asteroides keratitis associated with extended-wear soft contact lenses, Parsons MR et al, 120-122

Adrenergic β -receptor blockers:

Efficacy and safety of once-daily levobunolol for glaucoma therapy, Rakofsky SI et al, 2-6

Adverse effects: see Drug therapy

Age factors:

Causes and management of bacterial keratitis in the elderly, Ormerod LD, 112-116
Manpower Study Four implies future supply and demand for ophthalmologists is balanced, Valberg JD, 286-291

Alopecia:

Vogt-Koyanagi-Harada syndrome variant, Dewan S et al, 109-111

Amblyopia:

A comparison of photoscreening techniques for amblyogenic factors in children, Kennedy RA et al, 259-264
Duane's retraction syndrome: southwestern Ontario experience, Ro A et al, 200-203

Amylocaine:

Ocular complications of a topical methylene blue-vasoconstrictor-anesthetic preparation, Brownstein S et al, 317-324

Amyloid:

Extramedullary plasmacytoma (amyloid tumour) of the caruncle, Cooper JH et al, 166-168

Anesthesia:

Brain-stem anesthesia complicating retrobulbar block, Mercereau DA, 159-161

Inferior rectus restriction after retrobulbar anesthesia for cataract extraction, Ong-Tone L et al, 162-165

Peribulbar block for cataract surgery: a prospective double-blind study of two local anesthetics, Davis PL et al, 155-158

Anesthesia, conduction:

Brain-stem anesthesia complicating retrobulbar block, Mercereau DA, 159-161

Inferior rectus restriction after retrobulbar anesthesia for cataract extraction, Ong-Tone L et al, 162-165

Peribulbar block for cataract surgery: a prospective double-blind study of two local anesthetics, Davis PL et al, 155-158

Anesthesia, local:
